**§ 17.48 Compensated Work Therapy/Transitional Residences program.**

(a) This section sets forth requirements for persons residing in housing under the Compensated Work Therapy/Transitional Residences program.

(b) House managers shall be responsible for coordinating and supervising the day-to-day operations of the facilities. The local VA program coordinator shall select each house manager and may give preference to an individual who is a current or past resident of the facility or the program. A house manager must have the following qualifications:

## Department of Veterans Affairs

## § 17.50

(1) A stable, responsible and caring demeanor;

(2) Leadership qualities including the ability to motivate;

(3) Effective communication skills including the ability to interact;

(4) A willingness to accept feedback;

(5) A willingness to follow a chain of command.

(c) Each resident admitted to the Transitional Residence, except for a house manager, must also be in the Compensated Work Therapy program.

(d) Each resident, except for a house manager, must bi-weekly, in advance, pay a fee to VA for living in the housing. The local VA program coordinator will establish the fee for each resident in accordance with the provisions of paragraph (d)(1) of this section.

(1) The total amount of actual operating expenses of the residence (utilities, maintenance, furnishings, appliances, service equipment, all other operating costs) for the previous fiscal year plus 15 percent of that amount equals the total operating budget for the current fiscal year. The total operating budget is to be divided by the average number of beds occupied during the previous fiscal year and the resulting amount is the average yearly amount per bed. The bi-weekly fee shall equal 1/26th of the average yearly amount per bed, except that a resident shall not, on average, pay more than 30 percent of their gross CWT (Compensated Work Therapy) bi-weekly earnings. The VA program manager shall, bi-annually, conduct a review of the factors in this paragraph for determining resident payments. If he or she determines that the payments are too high or too low by more than 5 percent of the total operating budget, he or she shall recalculate resident payments under the criteria set forth in this paragraph, except that the calculations shall be based on the current fiscal year (actual amounts for the elapsed portion and projected amounts for the remainder).

(2) If the revenues of a residence do not meet the expenses of the residence resulting in an inability to pay actual operating expenses, the medical center of jurisdiction shall provide the funds necessary to return the residence to

fiscal solvency in accordance with the provisions of this section.

(e) The length of stay in housing under the Compensated Work Therapy/Transitional Residences program is based on the individual needs of each resident, as determined by consensus of the resident and his/her VA Clinical Treatment team. However, the length of stay should not exceed 12 months.
